

Comments like this worry the Rothschilds and towards the end of the 1800's they purchase Reuters news agency so they can have some control of the media.

1907: Rothschild, Jacob Schiff, the head of Kuhn, Loeb and Co., in a speech to the New York Chamber of Commerce, warns that,

"Unless we have a Central Bank with adequate control of credit resources, this country is going to undergo the most severe and far reaching money panic in its history."

Suddenly America finds itself in the middle of another typical run of the mill Rothschild engineered financial crisis, which as usual ruins the lives of millions of innocent people throughout America and makes billions for the Rothschilds.

1912 Col. Mandell House writes the book Philip

Dru: Administrator. Col. Mandell House was the advisor (Illuminati handler) to President Woodrow Wilson. The book he wrote "envisioned nothing less than the abolition of America's constitutional order through a military putsch."⁶

Col. Mandell House was an outright socialist and according to the forward of his book, he "candidly and frequently expressed contempt for the U.S. Constitution."⁷

Satan successfully controls the world (II Cor. 4:4) through the use of his "KINGS" and his "KINGDOMS". The Bible tells us in the Book of Revelation, that in "the end times", there will be a one world government (politics), a one world economic system (banking) and a one world religious system (religion). Each of these systems will be controlled by the anti-Christ.

"For the love of money is the root of all evil..."

1 Timothy 6:10

Once the Illuminati established complete control over the worlds finances, through the use of "central banks", they used their wealth to gain control of each country's political system. Mayer Rothschild is quoted as saying "give me control over a nations finances, and I care not who makes it's laws." What he meant was that it didn't matter whether a country was ruled by a king, a dictator or constitutional republic. All forms of government need money to operate. Whoever controls the money, in essence, controls the government. No nation can even conduct a war without money. Mrs. Mayer Rothschild once said, "If my sons didn't want war, there would be no war." Think about that for a while. Instead of preventing wars by refusing to lend countries the money to fight them, they do the exact opposite. The Rothschild family and other "International Bankers" have been expanding their profits by lending money to both sides of a conflict. They have been doing this for centuries.
